## LIFE COACH

When Kim was seven years old she wanted to do a flip on the monkey bars. She practiced continuously until she finally managed to do one.

She had this incredible sense of inner power and she believed that she could do anything in the world. She felt like superwoman.

Eventually, she lost that inner knowing because she received many messages that she was not good enough and that childlike wonder faded. Once she hit adolescents she sank to her lowest and learned to master perfecting, pleasing and performing in order to feel some sense of belonging. She spent the last several decades on a journey of personal and spiritual growth. From all of the innerwork and growth that Kim accomplished she created a 5- Step Power Pathway that helps individuals recovering from codependency. Her superpower is helping individuals recover from codependency and to step into their power.

## MASKS OFF WITH KIM GROSS

Kim is the host of the popular podcast "Masks Off" and she is a champion for helping people find out exactly who they are behind the masks they wear. She helps people awaken themselves by guiding them to undo patterns, stop living for others, shift their mindset and start healing.
